Hi everyone,

Camps Australia service is open for new students to come in either the morning or afternoon for our Before and After Care Program.

Before Care is a good way to start the day by eating a good breakfast and meeting new friends.

After School Care is a great way for children to make friends with others. Our group activities help children to increase social interactions and communication.

We provide different experience for the children to do in both before and after care. We like helping and guiding them to improve and learn new skills, some of these experiences are drawing which gets the children to show their creative side and imagination, Arts and Craft where the children make different toys and equipment, Sporting activities making sure the children can stay active and many board games which helps children decision making. We also like to encourage children to do their homework when in the service.

We are excited to announce that we have a new coordinator in Suzette Hunt with Hayden Dunlop returning as an assistant. They are both very excited for the year ahead.

This term we are setting activities around certain holidays and events such as Chinese New Year and Winter Olympic Sports.

Below we have photos of children who are involved with the Camp Australia experience.
